Introduction

Welcome to Mind Over Matter School of Hypnotherapy & Stress Management.

Our objective is to help you learn, develop and achieve the required skills in the remarkable field of hypnotherapy.

The courses are delivered in a practical style, with authentic demonstrations in each discipline. You will then have the opportunity to practise these on other members of the group. We believe the best way to learn is to practise the skills taught under supervision.

The course is appealing, instructive, practical and fun. We are confident that you will enjoy our exciting practised approach to training and will enjoy our relaxed learning experience.

Continual home study is required as per GHR requirements; Supervision for newly qualified therapists is available through the school in groups or individually.

Whether you are looking for a complete career change to a full time hypnotherapist or to work part-time as a hypnotherapist to boost your income, you will find our course pleasant and informative. A hands on approach is used in all of our courses.

The courses are run in small groups, which will enable you to have an adequate amount of individual attention.

You will receive a full set of course material, with a comprehensive set of notes and instructions and a CD containing inductions and scripts to help you get started on your own.

The course is accredited and validated by the GHSC [General Hypnotherapy Standards Council] and covers the core curriculum, learning outcomes and principles of good practise, which are mapped to the National Occupations Standards [NOS] for hypnotherapy

After qualification

You now have a vast array of skills and tools that gives you the knowledge to treat clients in many different areas. The following areas are just for suggestion but are by no means an exhaustive list.

Weight reduction, Overcome Obesity, Phobias, Irrational Fears, Anxiety & panic, Pain Management, Migraine & headaches, Stop Smoking, Allergies, Psychosomatic Disorders, Irritable Bowel Syndrome (IBS), PMT, Interview Nerves, Nerves, Unwanted Habits, Obsessive Compulsive Disorder (OCD), Stuttering, Surgery, Dental Surgery, Insomnia, Infertility Problems, Public Speaking, Examination Panic Attacks, Eradicating Fears, Alcohol Abuse, Enhanced Sport Performance, Depression.....

Training Structure: Our training is divided into 4 modules, each one covering a period of 4 days. Modules one and two cover the Foundation Level in Hypnotherapy, with modules three and four covering the Professional Diploma in Hypnotherapy. The training for the Foundation and Diploma Level's are carried out over two Consecutive weekends [Three days each] [Friday, Saturday and Sunday] with a two day [Sat, Sun] follow up shortly afterwards to consolidate your learning's. The flexibility is such that if for any reason you are unable to attend one of our modules you can choose to attend any of our training sessions, which take place throughout the year. Delegates can choose to spread their training over consecutive courses.

How will you learn: There is some theory in the course, which is necessary for you to become a competent hypnotherapist, but mainly the course is a practical course. There are many demonstrations for you to watch and then you will have the opportunity to go and practice the skills yourself? Our teaching style is very informal and extremely relaxed, which we believe creates a more comfortable atmosphere for learning. Practical skills training are a vital

part of our training programme and you will have the opportunity to put your skills into practice on numerous occasions throughout the course.

The best way to learn is to watch the demonstration and then learn the technique by doing it. There is no better way to learn than a “hands on approach”. We do ask for volunteers from within the group for demonstration purposes or student practice.

Course material

A comprehensive set of course notes and instructions

A folder complete with protective sleeves for notes

A clipboard with pen, pencil and highlighter

A compilation of Hypnotherapy scripts on a CD. These will be very useful for conducting your own sessions

A marketing template for your own business

Suggestions for creating your own hypnotic CDs

Free business cards. We explain how and where you get these

Access to post course help (Telephone)

Tea/Coffee provided on arrival and at intervals during the day

Please note lunch is provided only where specified. Lunch is not provided during the Hypnotherapy Foundation or Diploma course training

On successful completion of our course, you will receive the relevant

Diplomas/Certificates for the course

Recommended Reading

- Hypnotherapy Dave Elman
- NLP Workbook Joseph O Conner
- The Wizard Within A. M. Crasner
- Getting Well Again O. Carl Simmonton
- Trance work Michael Yapko PhD
- Beliefs Robert Dilts
- EMDR Francine Shapiro PhD & Margot Silk Forrest

There is no requirement to read any of these before you commence your training.

Who is the course suitable for?

Our courses are designed to appeal to a wide sector of people, including already qualified therapists. We work closely with you throughout the course giving supervision and advice as necessary. Academic qualifications are not a prerequisite for entry. If you are interested in Hypnosis for your own use or to help others, then the Foundation or Diploma course is for you.

We abide by the GHSC code of ethics and the complaints procedure of the GHSC.

NB: Although it's unlikely, we reserve the right to alter the training venue, trainers and syllabus at our discretion and without prior notice.

All of our courses are focused on the transfer of skills and practical competence and light on theory. The best way to learn is a “hands on approach” so the focus is on watching demonstrations and then practising in pairs or groups so that you can practice and observe. Assessment is by continual observation of activity and development throughout the duration of the training programme.

Trainer...Trev Ramshaw SQHP, D.HYP Dip.SMC

With a background in senior management, I hold formal management qualifications and have dealt with people at all levels for many years, both in groups and on a one to one basis.

I first became involved in hypnosis after seeing a hypnotherapist myself for some issues caused when I served in the Falklands War, in the Royal Navy back in 1982. The sessions really helped me put things in perspective and allowed me to move on from the events of 1982.

I was determined to become a hypnotherapist so that I could help other people deal with similar issues and to make a difference to people in their general everyday life.

My aim now is to pass on those skills through training others to provide much needed hypnotherapists throughout the UK and abroad.

I was trained by Patrick Farnsworth, a well know London based Hypnotherapist and master practitioner of NLP, who is registered with the British Society of Clinical Hypnosis. He has trained with some of the leading authorities in the field of clinical hypnosis, NLP and psychology in Europe and the USA.

I qualified as a hypnotherapist in 2005 gaining the General Qualification in Hypnotherapy (GQHP). Later that same year I studied for the Diploma qualification (D.Hyp). In 2010 I succesfully gained my Senior Qualification in Hypnotherapy (SQHP).

To keep up to date with the latest developments in hypnotherapy, I have since invested a considerable amount of time on my professional development, attending many advanced training courses
